

Narrow Mechanism Tripod Vertical Turnstile ES1219

Reasonable and reliable design, low noise, smooth operation, and long lifespan. Thanks to its brushless motor and integration with our professional machine core, it offers superior performance. LED indicator: green for valid cards, red for invalid cards.

Parameters

Size (Length x Width x Height)	280*260*980 mm
Step width	550 mm
Force	35 W
Material	6=1,5 mm SUS304
Bar material	SUS201
Motion	Tripod turnstile mechanism with anti-reverse function
indicator light	RGB light
Power supply	24 V 50 W
Control unit	Main panel
Communication interface	Dry contact and RS485
Approval rate	35-50 people/minute
Temperature	-20°C~+70°C
Humidity	≤90% Non-condensing
IP	IP4X
Environment	Indoor and outdoor (outdoor with awning)
