

TX3
Series
VOICE ENTRY

Description

As the newest addition to the TX3 family of products & services, the TX3-NANO provides a unified platform for all your communication and access control needs. The TX3-NANO leverages the IoT (internet of things) to maximize flexibility and minimize costs, while simultaneously providing the basic communication and access control capabilities necessary for a door station.

Fully equipped with a weather-resistant design, the TX3-NANO incorporates common communication protocols, from PSTN and SIP, to access control and communication between occupants and visitors. Convenient, versatile and reliable, the TX3-NANO meets and exceeds the needs of customers who demand mobility and modern aesthetics.

The TX3-NANO is a cost-effective solution, by using SIP (session initiated protocol) to consolidate all communication through a building's existing IP-network.

Features & Benefits

Audio video communication from visitors to occupants in all lighting conditions

- Through its built-in camera with IR illumination, the TX3-NANO provides a positive visual identification of incoming visitors.

Ideal for multi-unit dwellings, townhouses, and individual homes

- can have multiple calling methods (ie. SIP ID, cell/land phone number, NSL relay code) with prioritization.

Versatile Door Station

- The door station can retrofit to existing entrance locations and/or integrate with modern communication networks. It also supports PSTN and SIP communication protocols.
- Compatible with MiEntry app. The app can receive audio/video calls from the station. MiEntry requires Mircom SIP service. Please contact Mircom for pricing.
- The Nano can call 3rd party SIP client mobile applications. Mircom does not give support for applications and services other than MiEntry and MiSIP.

Durable, complementary exterior design

- The TX3-NANO'S small surface mount housing attractively greets visitors with an illuminated scrolling name directory.

Built-in access control

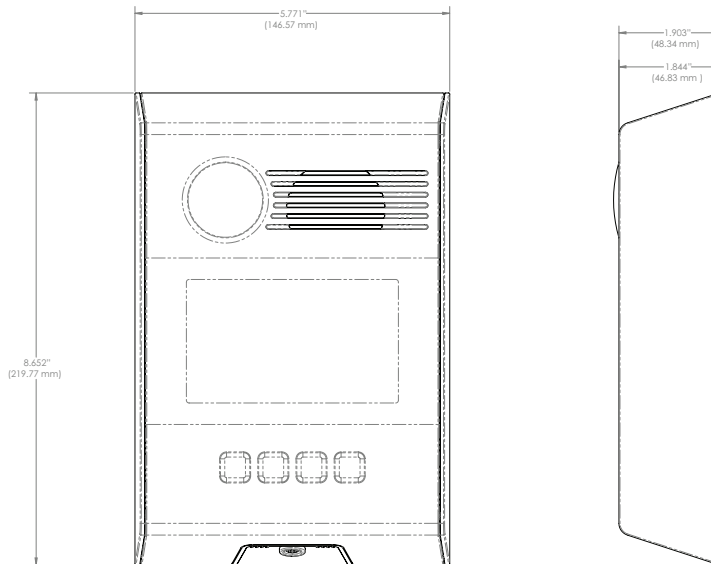

- Door control output is conveniently located on the station for easy installation.

TX3 Compatible

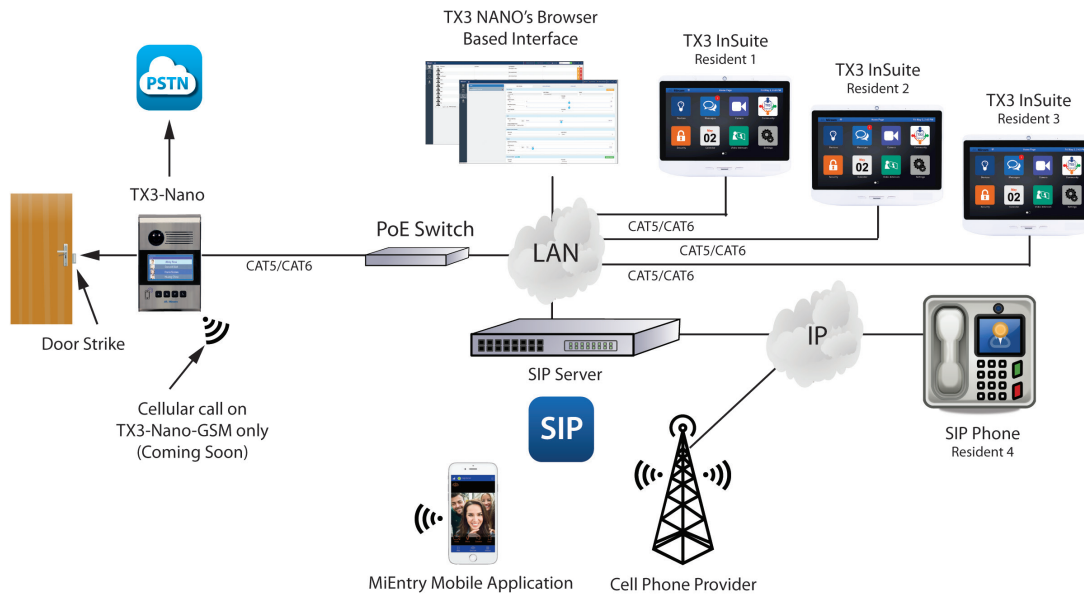

- The station is fully compatible with the entire suite of TX3 products & services.
