Bodyguard

CONNIENDED SENSOR

We open up New

OR ANSI 156.10

The Bodyguard's digital intelligence provides the ultimate in flexibility and safety!

The unique ability to detect through the threshold easily assists with exceeding ANSI 156.10!

Quality, Intelligence, Precision

- Diffused active infrared technology provides presence detection for any swinging or bi-folding application.
- Adaptive and efficient operation, thus less service calls
 - Sophisticated rain and snow mode. Tracking feature automatically adjusts to changes in the background.
 - Ability to turn off threshold row, even when the door is open. Allows for ease of set-up for the double egress swing door applications. Adaptable to custom applications.
 - Disregards door "drift". Improved tracking feature provides ability to ignore drifting doors caused by wind conditions and loose door arms.
- Deep threshold protection to increase safety by eliminate the fright factor
- Set-up in as little as 3 seconds.
- Advanced microprocessor recognizes door-open and door-closed position to allow for maximum presence detection.
- Nine selectable patterns accommodate a single or a pair of doors.
- Complemented by the BEA Universal lockout: LO Linx

2005

Bodyguard Technical Specifications

Detection Zone	
Selection of nine different	patterns
Closed Door	4' deep by 7' wide maximum pattern
Open Door	5' deep by 7' wide maximum pattern
Dimensions	11.8"L (305mm.) x 1.9"H (51mm.)
	x 1.9"W (46mm.)
Housing Color	Black anodized aluminum (ready to paint)
Immunity	Immune to sun light, HF Lamps,
	electrical and radio frequency interference
Material	Anodized aluminum and ABS plastic
Mounting Height	9'-0' max. (recommended 6'-6"to 8'-0")
Mounting Angles	
Bodyguard only	+5°, +10° (factory default setting: +5°)
Bodyguard with Bodymoun	t 0°,+5°,+10°
Supply voltage	24 V AC/DC + - 10% 50 to 60 Hz
Relay Output	
Max voltage at contacts	60V DC/ 125 V AC
Max Current at contacts	I A (Resistive)
Max power supply	30W (DC). 60 VA (AC)
Relay hold time	1 to 10 seconds
Remote Controlled	Sensitivity
Adjustments	Relay hold time
	Auto-Learn
	Data-type
	Detection Mode
	Relay Mode
	Set-up
	Frequency
	Inquiry
Technology	Diffused active infrared technology
Operating Temperature	-22° F to +140° F
Weight	1lb., 11oz. (765g)

SuperScan I

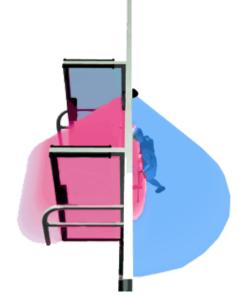

Bodyguard Components

- ¹ 6' Cable
- 2 Removable plug connector
- ³ Receivers
- ⁴ Lens
- Red/Green LED
- 6 Emitting LED's
- 7 End Cap

Applications

Provides protection in the swing path of the door.

Floods the threshold with presence detection when door is open.
